

Modular Locker Room / Modular Classroom

[CHALLENGE]

A small private school was in need of (2) additional classrooms and a small locker room. They had a small piece of land which they needed to attached the modular to a board walk, and needed it completed over the summer months in order to be completed by the start of the school year.

[SOLUTION]

Modular Genius built this school, a 1,440 sq ft modular building. The portable classroom building installation was complete in 45 days from award to occupancy.
