When you do business with Kinro, you can be assured that your order will be right and right on time. We're 100% committed to providing you with quality windows and dedicated customer service!

### Why choose Kinro Manufactured Housing Products?

Our aluminum frame windows with insulated glass are specifically designed to meet or exceed HUD and AAMA manufacturing requirements and safety standards for factory built housing manufacturers in the U.S. Pacific region.

This includes maximum air and light usage, wraparound glazing for weather, forced entry codes and all other manufacturing requirements.
