

Modular General Contractors Office

East New Market, MD

The Challenge

A general contractor was awarded a project to upgrade the Twin Cities Waste Water Treatment Plant located in East New Market, MD. They chose to buy their on-site office space instead of leasing and chose to install a modular building.

The Solution

Modular Genius built and installed a 1,344 sq. ft. modular office space featuring five interior offices, a break room for employees, an ADA compliant unisex restroom, built in desks, counters, and storage cabinets, and aluminum steps.
