

Private Religious School Modular Classroom

Watsonstown, PA

The Challenge

A private religious school in Watsonstown, PA needed to replace an existing temporary modular classroom on their campus with a new, modern one that met current building standards, and was able to accommodate more students. Modular Genius was contracted to design and install the building to meet their needs

The Solution

Modular Genius, Inc. designed and built a new 360 sq. ft. modular classroom building, featuring two separate classrooms, both with exterior doors. The new modular classroom building was designed to be functional, durable, and easily accessible for all students. As such, ADA compliant ramps were installed.
