

Modular Firing Range Building

Sumter, SC

The Challenge

A police department in Sumter, South Carolina needed a building for firearms training. They needed the building installed quickly and cost-effectively, so they chose modular construction.

The Solution

Modular Genius provided a 2,160 sq. ft. modular training facility, featuring a site-built shingle roof and a single-occupancy restroom, set on concrete footings. This modular building was installed with ADA compliant wooden steps and ramps.
