

# Government Contractor Modular Office

Dahlgren, VA

## The Challenge

A contractor working at a US Navy Base was in need of office space to house personnel for a period of five years. The modular space needed to be secure, without windows, and it needed to be configured for offices and cubicles.

## The Solution

Modular Genius provided a new 5,040 sq ft clear span modular building for the contractor. The building was built out to fit the customer's specific interior floor plan. The project was completed in 90 days from award to occupancy.
