

# CBOC Emergency Modular Building

Lewisburg, WV

## The Challenge

A West Virginia community was in need of a temporary solution after the local outpatient clinic was shut down due to ongoing air quality issues.

## The Solution

Modular Genius provided a 3,600 sqft clinic that was designed to serve veterans physical and mental illnesses, and is equipped with a pharmacy and laboratory. It is set to handle patients until the new Greenbrier County VA Clinic replacement is completed and activated.
