

# Modular Family Medical Clinic

Humeston, IA

## The Challenge

A County Hospital had interest to expand their services to small rural community in need of local healthcare. The Hospital had the land, doctors and staff and needed a fast modular building solution.

## The Solution

Modular Genius and the Hospital worked together to design and build the modular healthcare facility that met their specific needs and fit within the budget. A 2,100 sqft modular building was built delivered and installed on site inclusive of all turnkey services in approx. 90 days from contract to completion.
